HUMAN TRAFFICKING & THE ADULT ENTERTAINMENT INDUSTRY

Hearing certain statistics like the ones listed to the right can be daunting, overwhelming and depressing. As we learn more about the realities of human trafficking and the harmful effects of the adult entertainment industry, it can be easy to look the other way and pretend it doesn't exist because of our lack of understanding. We may not be able to see a solution so we feel helpless.

Let's not forget though, that we have a God that's bigger than all of this who is on our side and ready to give the necessary tools to those who are willing. We cannot forget that we serve a vital role in God's plan.

The Spirit of the Sovereign Lord is on me, because the LORD has anointed me to preach good news to the poor. He has sent me to bind up the brokenhearted, to proclaim freedom for the captives and release from darkness for the prisoners *Isaiah 61:1*

After Awareness Comes Action

This newsletter is filled with opportunities for you to take action if you are willing. A great place to start is in prayer. Read about the local ministry in Portland, OR called The Cupcake Girls and find out how they are making an impact personally with women caught in this industry.

If you would like more information about any of the actions you can take listed in this newsletter, check out the websites listed to the right. In God's love,
Carrie Allen

MYTH vs. TRUTH

Taken from www.sharedhope.org and an article by Chicago Alliance Against Sexual Exploitation entitled "Deconstructing the Demand for Prostitution".

Myth: Child sex trafficking is not happening in the US

Fact: At least 100,000 American children are being exploited through pornography or prostitution every year.

Myth: Women and girls choose a life of prostitution

Fact: Traffickers and pimps use physical, emotional, and psychological abuse to coerce young women and girls.

Myth: Only a small percentage of people view child pornography or purchase kids for sex

Fact: 1 out of every 5 pornographic images is of a child; and 55% of child pornography comes from the United States.

Myth: Only certain types of men buy sex

Fact: These men are from every race, age group, profession, economic class, and education level.

Myth: There is no link between prostitution and pornography

Fact: For many men who buy sex there is no difference between the two. Men purchased women as a way to engage in what they had seen in pornography.

Peace, Love, & Cupcakes!

LOCAL MINISTRY HIGHLIGHT:

THE CUPCAKE GIRLS

In 2009 when a few people saw the needs of women working in the adult entertainment industry in Las Vegas and began knocking on doors with cupcakes, they were surprised to not only be invited in, but also invited back.

The Cupcake Girls is a very unique ministry that started in Las Vegas and now serves in the Nevada brothels and also the Portland area. They have the goal that within ten years, they will have a presence in every single strip club in Las Vegas and Portland as well as every brothel in Nevada.

The box of cupcakes provides a free ticket for the ministry to enter into strip clubs and meet with women who seldom receive any support whatsoever. Monthly cupcakes turn into friendships and coffee dates, which turn into hosting birthdays and baby showers.

Many need someone to care for them and believe in them. They are filled with doubt and have many unmet needs. But with this “network of individuals committed to providing

non-judgmental support, consistent caring, and messages of faith, hope and love”, women are becoming empowered to grow.

The Cupcake Girls have served as babysitters, chauffeurs, shoulders to cry on, hands to hold, cheerleaders, stylists, mentors, and most importantly friends. They have also partnered with tutors, lawyers, doctors, dentists, financial advisors, and skilled professionals to assist the women by offering the right solutions at the right time.

Ultimately they would like to see the ministry serving every major city in the United States. They dream of having a resource center for job placement, counseling, daycare, spiritual guidance, and many other assistance resources, along with the dream of having a safe house for women who are caught in human trafficking.

There are so many ways for both men and women to get involved with The Cupcake Girls. They value their volunteers tremendously and have

created many teams and opportunities to fit a wide range of interests and talents.

Visit their website www.thecupcakegirls.org to read more about the various opportunities to serve and fill out the volunteer application form.

"A special thank you and appreciation is due to the Cupcake Girls of Portland for helping me find a car seat and for being there during a struggling time ... you guys made me feel comfortable and I can't wait to meet again...

Thank you guys...you're exactly what the industry needs."

➤ SPREAD AWARENESS

“The DNA Foundation launched a campaign targeting men with the message that Real Men Don't Buy Girls. The goal of the campaign was to create a cultural shift around the implicit societal acceptance of child prostitution, and thus, child sex slavery. We hoped to reach millions of people with information about the issue. More than 2 million people have participated in the campaign so far.”

You can help create the cultural shift. Let your friends know that “Real Men Don't Buy Girls”.

LONGVIEW-KELSO • THE WORLD FOR CHRIST

Pray

RED-LIGHT PRAYER INITIATIVE

Join the Red-Light Prayer Initiative

Exodus Cry has created the Red-Light Prayer Initiative in an effort to see red-light districts across the world transformed. We're challenging **you** to pray for the Kingdom of God to come in the red-light districts **every time you're stopped at a red light.**

Why: Red-light districts encompass the globe. They serve as harbors for trafficking victims and roaming grounds for sex-mongering men. As these areas remain unchecked, they persist as hotbeds for trafficking activity. On the surface, red-light districts are seen as safe working environments for prostitutes to express their sexuality while making money "the easy way." Underneath this façade, however, there is a ghastly reality—girls, oftentimes from a foreign country, are being held as sex slaves. They are sold into an industry

that gives them nightly quotas and keeps all their earnings. They are disciplined with mental, physical, and sexual abuse, often made passive by forced drug use, and held captive in prison-like residences. Contrary to common perception, red-light districts offer no freedom for prostituted women, only for the men who use, sell, and abuse them.
